SUMMARY

AI/ML Engineer skilled in building production-grade, multimodal intelligence systems. Experienced in full-stack AI pipelines integrating LLMs, RAG, and real-time data with Python, Firebase, and React Native. Passionate about designing voice-driven, context-aware applications that bridge deep learning and user experience.

INTERNSHIP & TRAINING

AI ML Intern & Full Time (Onsite) – Dot eVentures Pvt. Ltd. Feb 2025 – Present
Hyderabad, Telangana

- Built and scaled a custom **RAG pipeline** by scraping websites and chunking documents to create searchable embeddings, powering AI-driven Q&A across apps, extensions, and internal tools.
- Engineered full-stack mobile and web features using **React Native CLI, Flask, FastAPI, and Firebase** (Auth, Firestore, Realtime DB) for real-time, user-centric workflows.
- Built **voice-driven automation pipelines** supporting background recording, real-time transcription, LLM-based summarization, geo-tagging, and intelligent scheduling with route optimization.

Summer Intern – NIT Puducherry May – June 2024
Karaikal, Pondicherry | 2 months

- Implemented ML models to predict **drug-target interactions (DTI)** using features from proteinBERT and chemBERT.
- Predicted **binding affinities (DTA)** using Davis and Metz datasets; tools: Python, Scikit-learn, Jupyter Notebook.

EDUCATION

RGUKT IIIT Srikakulam Nov 2021 – May 2025
B.Tech – Computer Science & Engineering **GPA: 9.22 / 10.0**

RGUKT IIIT Srikakulam Sept 2019 – Oct 2021
Pre-University Course (PUC) **GPA: 9.84 / 10.0**

Z.P.H. School, Makkuva June 2014 – May 2019
Secondary Education (10th) **GPA: 10.0 / 10.0**

SKILLS

Programming Languages

C, Python, Java, JavaScript, MySQL

Web & Mobile

React Native CLI, Flask, FastAPI, REST APIs, HTML, CSS, Firebase Auth, Firestore

ML & AI

OpenAI GPT-4o, Whisper, Hugging Face, LangChain, LangGraph, Scikit-learn, NumPy, Pandas, TensorFlow, PyTorch, Matplotlib, Seaborn, pydub, Silence Detection

Vector Databases

FAISS, Pinecone, ChromaDB, Weaviate

Tools & Platforms

Git, Postman, Jupyter Notebook, Google Colab, VS Code, Replit

PROJECTS

Selli – Sales CRM App (iOS, Android & Web) Jun – Sept 2025
@ Dot eVentures | selll.in | [Play Store](https://play.google.com/store/apps/details?id=com.selll.in) | [App Store](https://apps.apple.com/IN/app/selli/id1688888888)

- Full-stack sales CRM for lead management, visit logging, day in/out tracking, and real-time analytics; **live and used daily** by all sales reps.
- Built **AI-powered Product Training bot** for instant product clarifications.
- Tech:** React Native CLI, HTML/CSS/JS, Firebase, FastAPI, OpenAI APIs.

Calli – AI Inbound & Outbound Calling Agent 2025
@ Dot eVentures Pvt. Ltd.

- AI voice agents that **converse naturally over phone calls**, handling inbound queries and outbound campaigns without human intervention.
- Automated outbound call scheduling** for reminders, follow-ups, and engagement; integrated real-time STT/TTS pipelines with LLM conversation logic.
- Tech:** Python, FastAPI, OpenAI GPT-4o, Whisper, TTS APIs, Firebase.

LearnEng – English Learning App Backend May – Jun 2025
@ Dot eVentures | learneng.app

- Backend APIs for **LSRW modules** with CEFR-aligned LLM personalization.
- Resolved **Whisper hallucination** via custom silence-detection algorithms.
- Tech:** Flask, Whisper, OpenAI GPT-4o-mini, Firebase.

Thapasya Bangles – E-Commerce Website 2025
thapasyabangles.vercel.app

- Fully functional e-commerce site for a **live thread bangles business**, with product catalog, browsing, and order flow; mobile-responsive on Vercel.
- Tech:** HTML, CSS, JavaScript, Vercel.

AIDr. – AI Health Analysis & Chatbot Feb – Apr 2024
@ Dot eVentures Pvt. Ltd.

- Engineered backend APIs for **AI-driven health analysis** delivering personalized remedies, precautions, and prescription suggestions based on chronic conditions, allergies, and vitals.
- Developed conversational chatbot for natural-language health queries and self-care guidance.
- Tech:** Python, Flask, OpenAI GPT-4o, Firebase.

COURSES & CERTIFICATIONS

Generative AI Mastery Udemy, Jan 2025
LLMs, transformers, vector databases, fine-tuning; built chatbots & stock analysis tools using HuggingFace, OpenAI, LangChain.

ChatGPT Prompt Engineering Mastery Udemy, Dec 2024
Crafting effective AI prompts to optimise model performance and precise outputs.

Machine Learning – Internshala IIT-Madras Certified, May–Jun 2022
6-week ML training program; scored **83%** in the final test.
