SUMMARY

AI/ML Engineer who has shipped **10+ production AI/ML projects** – spanning voice agents, generative AI, computer vision, and health tech – skilled in building production-grade, multimodal intelligence systems. Experienced in full-stack AI pipelines integrating LLMs, RAG, and real-time data with Python, Firebase, and React Native. Passionate about designing voice-driven, context-aware applications that bridge deep learning and user experience.

EXPERIENCE

AI ML Intern & Full Time (Onsite) – Dot eVentures Pvt. Ltd.

Feb 2025 –

Present
Hyderabad, Telangana

- Developed and deployed **production-grade AI/ML systems** across domains including sales automation, voice intelligence, health tech, and language learning.
- Worked extensively on **LLM integration, RAG pipelines, and real-time STT/TTS** to build conversational and context-aware applications.
- Delivered end-to-end solutions spanning **mobile (React Native), backend (Flask, FastAPI), and cloud (Firebase)** with live user-facing deployments.

Summer Intern – NIT Puducherry

May – June 2024

Karaikal, Pondicherry | 2 months

- Implemented ML models achieving strong DTI prediction accuracy using proteinBERT & chemBERT features.
- Benchmarked **DTA binding affinity** on Davis & Metz datasets; tools: Python, Scikit-learn.

EDUCATION

RGUKT IIIT Srikakulam

Nov 2021 – May 2025

B.Tech – Computer Science & Engineering

GPA: 9.22 / 10.0

RGUKT IIIT Srikakulam

Sept 2019 – Oct 2021

Pre-University Course (PUC)

GPA: 9.84 / 10.0

Z.P.H. School, Makkuva

June 2014 – May 2019

Secondary Education (10th)

GPA: 10.0 / 10.0

SKILLS

ML & AI

OpenAI, Gemini, Whisper, ChromaDB, Hugging Face, LangChain, LangGraph, Scikit-learn, NumPy, Pandas, TensorFlow, PyTorch

Web & Mobile

React, React Native, Flask, FastAPI, REST APIs, HTML, CSS, Firebase, Supabase

Programming Languages

C, Python, JavaScript, MySQL

Tools & Platforms

Git, GitHub, Postman, Jupyter Notebook, Google Colab, VS Code, Replit, Vercel, Railway, Razorpay, AWS, Claude Code

COURSES & CERTIFICATIONS

Generative AI Mastery

Udemy, Jan 2025

LLMs, transformers, vector databases, fine-tuning; built chatbots & stock analysis tools using HuggingFace, OpenAI, LangChain.

ChatGPT Prompt Engineering Mastery

Udemy, Dec 2024

Crafting effective AI prompts to optimise model performance and precise outputs.

Machine Learning – Internshala

IIT-Madras Certified, May–Jun 2022

6-week ML training program; scored **83%** in the final test.

PROJECTS

Thapasya Bangles – E-Commerce Website

2026

thapasyabangles.vercel.app

- Built a complete product catalog with categories, image galleries, and detail pages for each design.
- Implemented a smooth, mobile-first browsing and ordering flow from catalog to checkout.
- Integrated **Razorpay** for secure, real-time online payments at checkout.
- Deployed on **Vercel** with **Firebase** for backend and **Railway** hosting backend services – a live production storefront.
- Tech:** React, Firebase, Railway, Razorpay, Vercel.

SellI – Sales CRM App (iOS, Android & Web)

Jun – Sept 2025

@ Dot eVentures | sellI.in | [Play Store](https://play.google.com/store/apps/details?id=com.sellI) | [App Store](https://apps.apple.com/IN/app/sellI/id1668888888)

- Built lead management, visit logging, and day in/out attendance tracking used daily by every field sales rep.
- Delivered real-time analytics dashboards giving managers live visibility into team performance.
- Designed and built an **AI-powered Product Training bot** for instant product Q&A.
- Shipped as native apps on both the **Play Store** and **App Store**, plus a companion web experience.
- Tech:** React Native CLI, HTML/CSS/JS, Firebase, FastAPI, OpenAI APIs.

Classess – AI-Enhanced School Management Platform

2026 – Present

classess.com

- Working as **AI/ML Developer** building the intelligence layer behind assessments, analytics, and course building agents.
- Designed **LLM-driven AI agents** for smart course building and automated evaluation, plus **hyperlocalization** so content adapts to a student's and teacher's region.
- Integrated **Razorpay** as the payment gateway for subscriptions/payments, and contributed across several other core modules.
- Tech:** React, FastAPI, Supabase, OpenAI, Gemini, Razorpay.

LearnEng – English Learning App Backend

May – Jun 2025

@ Dot eVentures | learneng.app

- Built backend APIs for all four **LSRW modules** with CEFR-aligned LLM-driven personalization per learner.
- Implemented a multilingual chatbot to support learners practicing across different native languages.
- Diagnosed and resolved a **Whisper hallucination** issue via a custom silence-detection algorithm, improving transcription reliability.
- Tech:** Flask, Whisper, OpenAI GPT-4o-mini, Firebase.

AIDr. – AI Health Analysis & Chatbot

Feb – Apr 2025

@ Dot eVentures Pvt. Ltd.

- Engineered backend APIs for **AI-driven health analysis** delivering personalized remedies, precautions, and prescription suggestions based on chronic conditions, allergies, and vitals.
- Implemented a conversational chatbot for natural-language health queries and everyday self-care guidance.
- Built the **GPT-4o prompting and response pipeline** to keep suggestions grounded and consistent.
- Tech:** Python, Flask, OpenAI GPT-4o, Firebase.

CallI – AI Inbound & Outbound Calling Agent

2026

@ Dot eVentures Pvt. Ltd.

- AI voice agents that **converse naturally over phone calls**, handling inbound queries and outbound campaigns without human intervention.
- Automated outbound call scheduling** for reminders, follow-ups, and engagement campaigns.
- Integrated real-time STT/TTS pipelines with LLM conversation logic to keep latency low and dialogue natural.
- Tech:** Python, FastAPI, OpenAI, Whisper, TTS APIs, Firebase.
